

THE TARPLESS® RIPENING ROOM

THERMAL TECHnologies
INCORPORATED

GO TARPLESS®!

For the Most Apeeling Fruit at the Guaranteed Lowest Operating Costs

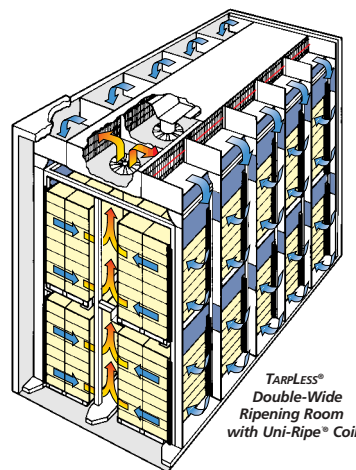

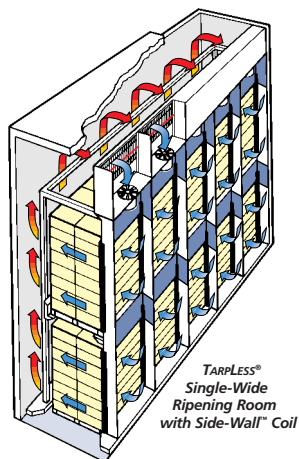

Three-tier, 42 pallet TarPless® ripening rooms with Uni-Ripe cooling coils. Wal-Mart - Winterhaven, Florida.

The TarPless® ripening room gives you a choice of Side-Wall™ or Uni-Ripe® cooling coils for single-wide or double-wide room configurations with dual-temperature capability.

Two-tier, 44 pallet TarPless® ripening Rooms with Side-Wall™ cooling coils. Safeway - Portland, Oregon.

THE SECRET: Exclusive room length, low-velocity cooling coils provide uniform temperature, humidity, and air flow for consistent pulp temperatures throughout the room. You get fruit ripened to the exact color stage you need when you need it, with the power to speed up or slow down the ripening process while maintaining fruit quality.

Give your customers the consistent, high quality fruit today's market demands while increasing your sales and profit.

The TarPless® ripening room gives you total control over fruit quality - no matter how many truckloads you process or from how many growers you buy. It pampers and protects your fruit while minimizing shrinkage and improving shelf life for a proven 10%-20% increase in sales and profit. Used by nine of the top ten grocery retailers in North America, the TARPLESS ripening room offers a host of competitive advantages no other system can match:

- **GUARANTEED UNIFORMITY** - Every pallet is ripened to the exact same color at the exact same time, with improved appearance, greater net weight and longer shelf life.
- **FOOLPROOF OPERATION** - Simply load the pallets, close the door, and set the desired temperature or ripening program. No other system is easier to use!
- **LOWEST OPERATING COSTS** - Exclusive, room-length cooling coils use less horsepower than any other multi-tier system, for typical energy savings of \$3,000 to \$4,000 per year, per truckload of capacity.
- **MAINTENANCE-FREE PRESSURIZATION** - No moving parts insures years of continuous, trouble-free operation with the lowest labor costs of any other ripening room system.
- **TOTAL RIPENING CONTROL** - Speed up or slow down the ripening process to take advantage of market conditions without sacrificing quality. No other system gives you this kind of control.

TarPless® ripening rooms work with every pallet design, offer the widest range of room configurations, and the lowest labor, maintenance and energy costs to make your ripening operation more efficient and profitable than ever before!

Three-tier, 42 pallet ripening rooms, Albertsons, Chicago, Illinois
